PNL proposes among its new government's public finance objectives, which it has announced it does not support, such as reorganizing the Ministry of Finance in the first half of 2020, finalizing the reorganization of ANAF in the first quarter of 2020, connecting cash registers to the information system of ANAF in the first half of 2020, the completion by the end of the year of the electronic information transfer system between legal entities and ANAF - SAF-T, as well as the modification of the status of CEC and EXIM Bank to change from a unitary management to one dualistic.

The governing program has now been prepared by PNL for the new government formed by Prime Minister-designate Ludovic Orban. Orban was appointed by President Klaus Iohannis to re-form the government, after being resigned last week by Parliament.

## Objectives for 2020

1. End of the fiscal year for 2020 without exceeding the deficit target of 3.6% of GDP. Maintaining the objective of reducing the budget deficit below the 3% of GDP threshold in two years, as stipulated in the Fiscal Strategy 2020-2022. Preparation of the budget rectification according to the execution for the first six months of 2020.
2. Respecting the predictability and transparency of fiscal and budgetary policy. The fiscal and budgetary policy measures will be put into public debate, with the consultation of economic agents and representatives of civil society; fiscal and budgetary policy measures will be accompanied by impact studies;
3. Reorganization and efficiency of the Ministry of Finance in the first half of 2020.
4. Finalizing the ANAF reorganization in the first quarter of 2020. This reorganization will lead to the professionalization of ANAF until the end of 2020 and especially to the political decoupling of this institution.
5. Completion, in the first half of 2020, of the connection of cash registers to the computer system of ANAF and until the end of the year of the electronic information transfer system between legal entities and ANAF - SAF-T. Positive impact for the budget from the fourth quarter of 2020.
6. Modifying the status of CEC and EXIM Bank to change from a unitary to a dualist one.
7. Finalizing the medium and long term strategy for the banking financial system where the Romanian state is a single or majority shareholder.

8. Strengthening cooperation with tax authorities in other EU Member States, the European Commission and other international institutions involved in preventing and reducing tax evasion, by strengthening the revenue base and eliminating the transfer of profits in tax jurisdictions that encourage such practices;

9. The firm establishment of the multiannual budget as a tool for sizing and calibrating fiscal and budgetary policy options, in correlation with the financial programming framework at EU level. Gradually, the structural deficits will be ensured in the medium-term objectives agreed with the European Commission;

10. Multiannual programming of public investments, regardless of the source of financing (public budgets, European funds, loans, public-private participation) based on criteria of prioritization of projects according to relevance (compatibility with sectoral strategies), expected results (impact), capacity to carry out the project within the stipulated term, and financial sustainability.

11. Continue the checks and evaluations in the state institutions and the programs financed with money from the budget, so that each leu spent from the public funds is in accordance with the provisions of the law and bring added value to the economy.
