VAT EXPERT GROUP¹

VEG NO 126 – REV 1

Single VAT Registration - Follow-up

DISCLAIMER: This working document has been prepared by the Commission services and cannot be understood as representing the European Commission's position and does not bind the Commission in any way. Neither the European Commission nor any person acting on its behalf may be held responsible for the use, which may be made of the information contained therein.

¹ Group of experts on value added tax to advise the Commission on the preparation of legislative acts and other policy initiatives in the field of VAT and to provide insight concerning the practical implementation of legislative acts and other EU policy initiatives in that field.

1. INTRODUCTION

On 5 November 2024, the Council reached an agreement on the VAT in the Digital Age (ViDA) package² which has now been formally accepted on 11 March 2025, following the green light of the European Parliament that was reconsulted for its opinion on the modified text³.

The ViDA package has three different parts: i) Digital Reporting Requirements (DRR) and electronic invoicing, ii) Platform Economy and iii) Single VAT Registration (SVR).

This working document aims at providing an implementation plan for the SVR elements of the ViDA package. The document also provides an overview of the entry into force dates, the impacts for the implementation of these SVR elements and the need for revision of the implementing acts, explanatory notes and guides.

2. IMPLEMENTATION

2.1 VAT

2.1.1. Adoption of a new Commission Implementing Regulation to secure the IOSS

In order to better secure the IOSS against certain forms of tax evasion or avoidance, new provisions are required. In this context, the new Article 143, paragraph 1a of the VAT Directive stipulates that (...) *the Commission shall adopt an implementing act to introduce special measures to prevent certain forms of tax evasion or avoidance by, inter alia, linking the unique consignment number with the corresponding VAT identification number (...).*

In this context, the Commission services undertook, as from March 2024, preliminary study work for protecting the use of the IOSS VAT identification numbers via a unique transaction ID (per transaction) in combination with either a verification process on the basis of verifiable credentials accompanying the parcel or with the use of real time reporting of those IDs to the authorities. This was followed by a workshop in Helsinki in June 2024.

Subsequently, a Fiscalis Project Group (FPG053) was set up to study, assess, develop and test (a) comprehensive solution(s) to secure the IOSS.

² [VAT in the Digital Age \(ViDA\) - European Commission](#)

³ [Parliament green lights update of VAT rules to make them fit for digital times | News | European Parliament](#)

Below, a timeline is provided of past, ongoing and planned work in this field.

Securing the IOSS	
Q2 2024	Helsinki workshop
Q4 2024	Setting up FPG053
Q1 2025	FPG053 to assess the options and prepare a pilot
Q2 2025	Development of a pilot
Q3 2025 – Q3 2026	Running of a pilot by Commission
Q3 2026	Presentation of the draft Commission Regulation to the SCAC
Q3 2026	Vote in SCAC
Q4 2026	Commission adoption
Q4 2026	Consultation of the European Data Protection Supervisor (EDPS)
2027	Implementation (including functional specifications, technical specifications, development and testing)
1/3/2028	Entry into application

2.1.2. Amendments to Commission Implementing Regulation (EU) 194/2020 ⁴

This Regulation has to be amended for the implementation of:

- (1) SVR improvements: this includes the improvements linked to an update of the OSS and IOSS legislation, as included in the ViDA package, but also a set of improvements to the processes suggested by Member States that do not have a legislative impact on the VAT Directive or the Council Regulations.
- (2) New SVR provisions: updates of articles and annexes of implementing regulations for the extension of the Union OSS, for the implementation of the transfer of own goods scheme (TOOG) as well as for the end of the call-off stock arrangements.

A list of all the SVR improvements and provisions is included in the list set out further down below. For the timeline, immediately hereunder, they are divided into two parts, depending on the dates of their entry into application; either 1 January 2027 or 1 July 2028.

SVR improvements as from 1/1/2027	
Q2 2024	Consultation of Member States and business in the Group on the Future of VAT (GFV) and VAT Expert Group (VEG) Helsinki workshop
Q4 2025	Presentation of the draft Commission Implementing Regulation to the Standard Committee for Administrative Cooperation (SCAC)
Q1 2026	Vote in SCAC
Q1 2026	Commission adoption
2026	Implementation (including functional specifications, technical specifications, development and testing) Review of explanatory notes/ OSS guidelines/ OSS portal
1/1/2027	Entry into application

⁴ Commission Implementing Regulation (EU) 2020/194 of 12 February 2020 laying down detailed rules for the application of Council Regulation (EU) No 904/2010 as regards the special schemes for taxable persons supplying services to non-taxable persons, making distance sales of goods and certain domestic supplies of goods (OJ L 040 13.2.2020, p. 114)

In the meantime, FPG046 was created to analyse and address the issues that Member States are facing in relation to the OSS payment and recovery processes. In this context, the need for a revision of all the OSS processes (registration, declaration and payment) was established. Possible short- and medium-term solutions will be implemented within the framework of the implementation of the following SVR part. As can be seen from the tables, it is the intention to only propose changes to the Commission Implementing Regulation once.

SVR improvements and new SVR provisions as from 1/7/2028	
Q4 2024 - Q2 2025	FPG046 - consultation of Member States on OSS improvements of processes
Q4 2025	Presentation of the draft Commission Implementing Regulation to the SCAC
Q1 2026	Vote in SCAC
Q1 2026	Commission adoption
Q4 2026 - Q2 2028	Implementation (including functional specifications, technical specifications, development and testing) Review of explanatory notes/ OSS guidelines/ OSS portal
1/7/2028	Entry into application

2.2 Customs

The improvements to the IOSS process introduce three new obligations upon the Member States' customs authorities:

- (1) Secure the use of the IOSS (see above)
- (2) Update the IOSS monthly listing in order to have statistics per Member State of consumption.
- (3) Provide customs access to more IOSS related data in order to verify at importation whether the VAT exemption was correctly applied by the IOSS holder

Update IOSS monthly listing – point (2) above	
Q4 2024	Business Analysis – update of IOSS monthly listing
Q1 2025	Update of the Customs Surveillance system
Q2 2025	Inform Member States (GFV, SCAC-EG, CEG-GEN)
Q2 2025	Entry into application

Access to more IOSS related data – point (3) above (1/7/2028)	
Q3 2025	Update of the IOSS- distributed registry (DR)
Q1 2026	Update of the IOSS-DR – Technological upgrade
2026-2027	Implementation - Update of local node (including update of functional specifications, technical specifications, development and testing)
Q1 2028	Inform Member States (GFV, SCAC-EG, CEG-GEN)
1/7/2028	Entry into application

3. OVERVIEW

The following tables aim to define the impacts for the implementation of these SVR elements and the need for revision of the implementing acts, explanatory notes and guides.

3.1. Improvements to the current VAT e-commerce rules

Legislative clarifications

Topics	Articles	Entry into force	IT Impact	Amendment to the Commission Implementing Regulation (CIR) n°2020/194 ⁵	Update of Explanatory Notes/Guidelines
Inclusion of supplies to the group of 4 in the deemed supplier provision Clarify the already existing situation that supplies to the group of 4, below the Intra-Community acquisitions (ICA) threshold and having not opted for taxation of their ICA, are included in the deemed supplier provision	VAT Directive⁶: - Article 14a (2)	01/01/2027	No IT impact – only clarification in the functional specifications	No	Explanatory Notes and OSS Guidelines

⁵ Commission Implementing Regulation (EU) 2020/194 of 12 February 2020 laying down detailed rules for the application of Council Regulation (EU) N) 904/2010 as regards the special schemes for taxable persons supplying services to non-taxable persons, making distance sales of goods and certain domestic supplies of goods (OJ L 040 13.2.2020, p. 114)

⁶ Council Directive amending Directive 2006/112/EC as regards VAT rules for the digital age ([Taxation: Council adopts VAT in the digital age package - Consilium](#))
